Threshold Bars, Weighted Node Features: Share of Element Similarities J > 0.75 (left bar) and J > 0.90 (right bar)
Each bar: all 171 infant pairs x the elements of that region (n elements in each label); segments of 6% or less are not labelled

ses-1

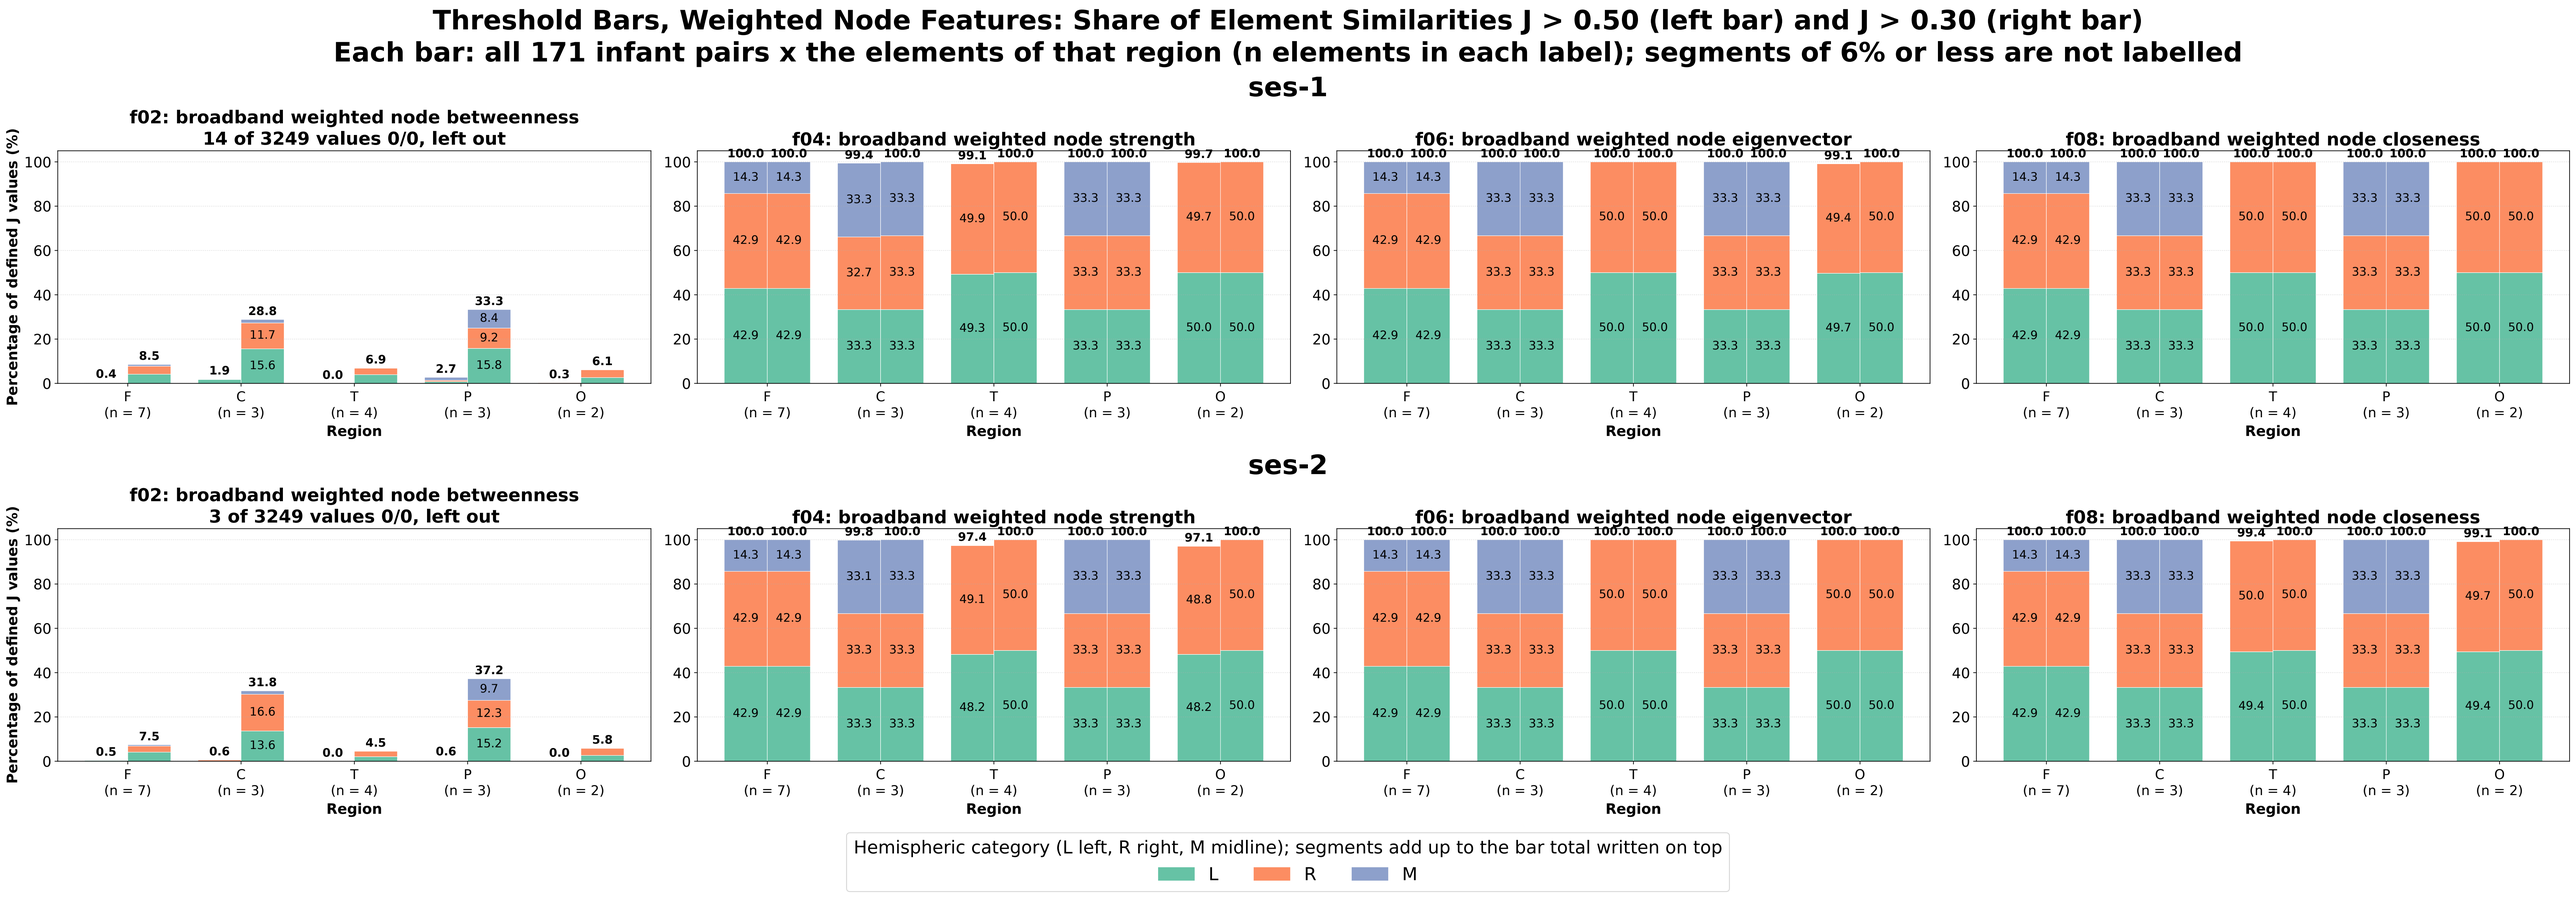

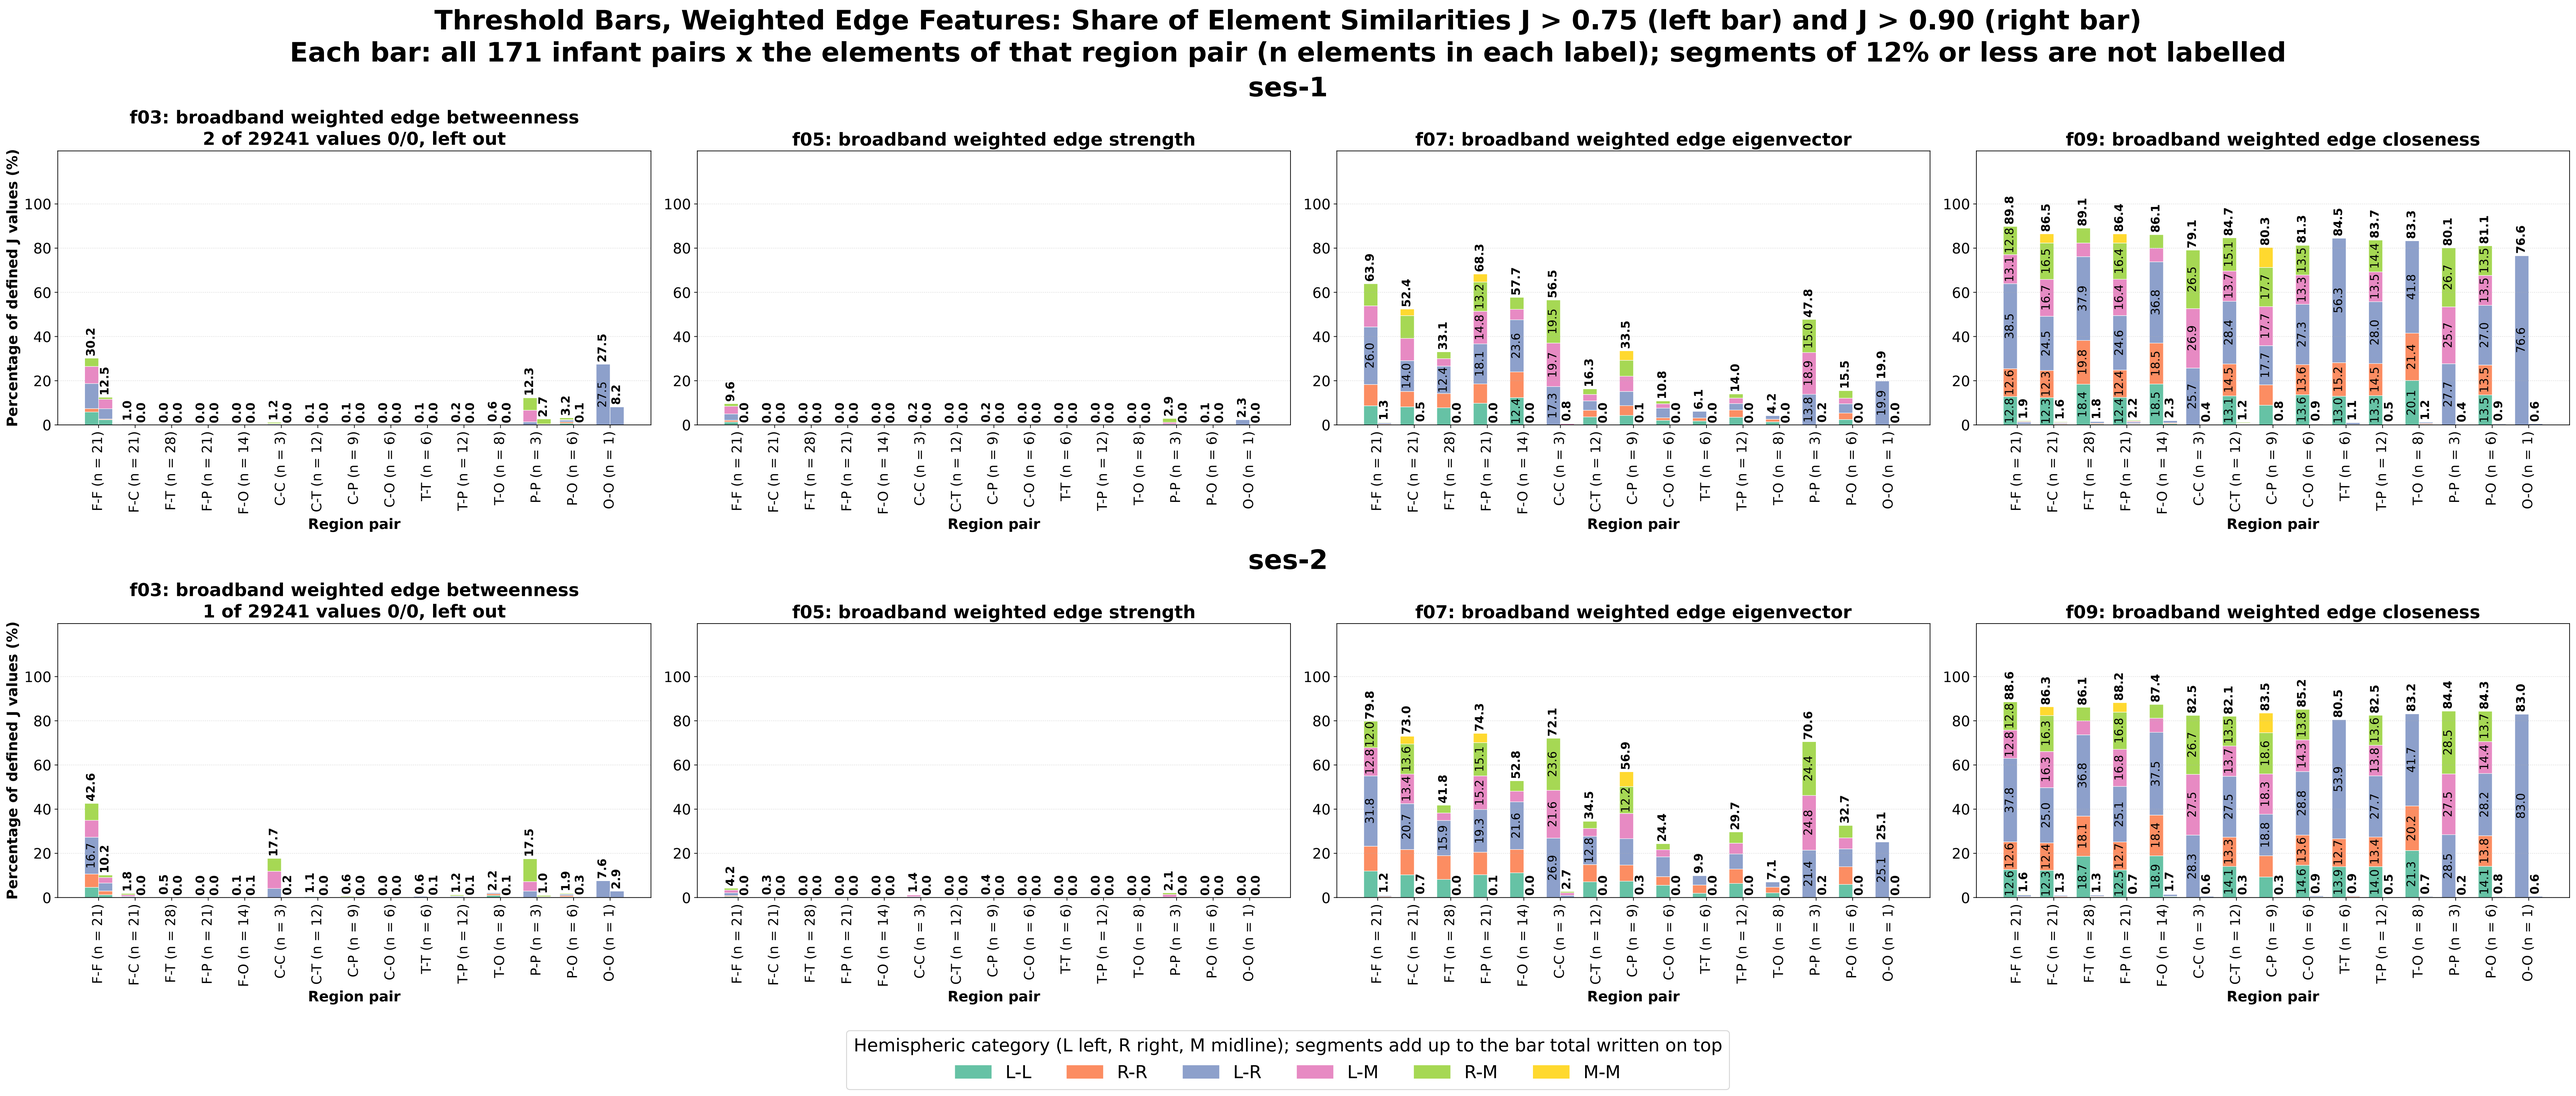

ses-2

Hemispheric category (L left, R right, M midline); segments add up to the bar total written on top

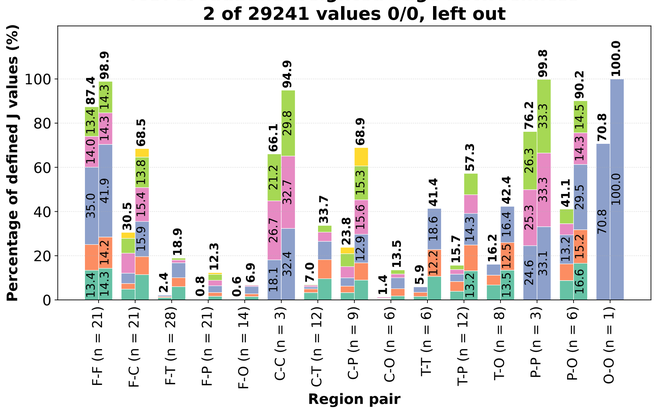

L R M

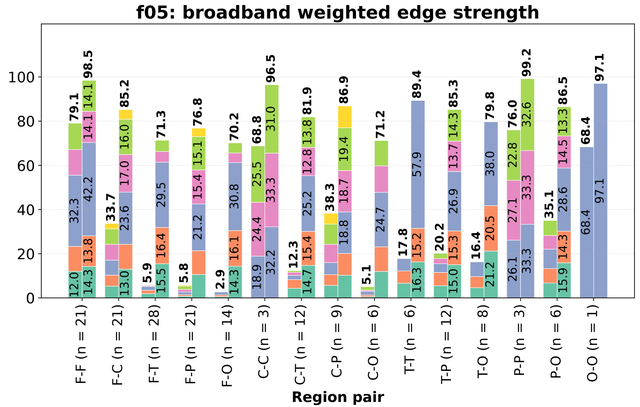

Threshold Bars, Weighted Node Features: Share of Element Similarities J > 0.50 (left bar) and J > 0.30 (right bar)
Each bar: all 171 infant pairs x the elements of that region (n elements in each label); segments of 6% or less are not labelled
ses-1
f02: broadband weighted node betweenness
